
EATS ONLINE ORDER FORM

Please Read Below Before Filling Out the Form

While filling out the form, please provide the most detail possible (Brand, size, quantity, name color, etc.). The more specific you are, the easier our job and the more likely you are to be satisfied with your order. Specifying things like: (type of granola/coffee/flour) (Organic/nonorganic) (Color) (Salt/unsalted) (price preference). Otherwise, if you do not care which item we select for you, please state that in your responses. We have to call you for anything non-specific.

We cannot guarantee that anything will be in stock, but we are working our best to fill your orders. We recommend including specifications like "if not available sub this" or "no substitution." These types of answers speed up our work and help us provide you with the groceries you need!

NOTE: After you have submitted your order, we cannot accept changes to the order, as we do not have the capability to accommodate every customer's requests. Therefore, all additions must be submitted as another order.

1. Double Check Your Order. Are you missing anything?
2. Submit orders the day before you need them.
3. Limit orders to 1-2 weeks' worth of groceries, in consideration of both staff fulfilment time and other customers. (If your order exceeds our capacity, we may reach out to modify your order.)
